To check if a student is enrolled:

1. Go to **Settings.** Choose **General** from the left menu.

2. Scroll down and look for the **Profiles** section (second from the bottom). It should say 4 – 6 Installed.

   **If there is no Profiles section, the student is not enrolled. Profiles only show if there is at least one installed.**

3. If you click on **Profiles,** it should look like this, with Prendiville Catholic College appearing under each Profile name:
This student is enrolled.
